Influenza Vaccination Honor Roll
from the Immunization Action Coalition

Honoring healthcare institutions with stellar influenza vaccination policies

IAC instituted its Honor Roll to recognize forward-looking hospitals, professional societies, and government entities that have taken a stand for patient safety by endorsing or implementing mandatory influenza vaccination policies for healthcare workers. To date, more than 300 organizations have qualified.

To qualify, an organization must require influenza vaccination for employees, and its mandate must include serious measures to prevent transmission of influenza from unvaccinated workers to patients. Such measures might include a mask requirement, reassignment to non-patient-care duties, or dismissal of the employee.

To read about the policies of the organizations that are included, or to apply for the Influenza Vaccination Honor Roll, go to www.immunize.org/honor-roll
