

The Recommended Adult Immunization Schedule, United States, 2009, was approved by the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices, the American College of Obstetricians and Gynecologists, the American Academy of Family Physicians, and the American College of Physicians. The Immunization Action Coalition's Guide to Contraindications and Precautions to Commonly Used Vaccines in Adults was technically reviewed by CDC.

The Immunization Action Coalition modified the format of these materials for publication of this laminated version of the adult immunization schedule.

To order additional copies of this laminated document, visit the Immunization Action Coalition's website at www.immunize.org/shop, call (651) 647-9009, or email admininfo@immunize.org.
