New DVD! Immunization Techniques: Best Practices with Infants, Children, and Adults

New in 2010 from the California Department of Public Health's Immunization Branch, this 25-minute DVD helps ensure that staff administer vaccines correctly to all age groups. An excellent training tool, the DVD provides detailed information on these major topics:

- Preparing vaccines—Mixing, reconstituting, and drawing up a variety of vaccine products and preparations
- Administering vaccines—Identifying correct needle lengths, in-

sertion angles, and injection sites, and giving injectable, oral, and nasal-spray vaccines.

- Communicating with parents and patients—Providing VISs, answering questions, and observing patients after vaccination
