Coming Soon! IAC's New Website for Immunization Coalitions

The Immunization Action Coalition (IAC) will soon be launching a new website for immunization coalitions at www.ImmunizationCoalitions.org (www.izcoalitions.org is the current coalitions' website). The new website will be a one-stop shop for the Immunization Coalitions Network (details about this group appear later in this article). The new website will offer resources of importance to the network, promote the activities of immunization coalitions, and provide an interactive online database of local, state, regional, national, and international immunization coalitions.

The cornerstone of the website is a database that allows interested healthcare professionals, parents, immunization advocates, and others to learn more about immunization coalitions. Currently, the database includes information on the organization and activities of more than 200 immunization coalitions. Use this material to find contact information, resources, ideas, and volunteering opportunities.
