The Vaccine Handbook: A Practical Guide for Clinicians (“The Purple Book”) is a uniquely comprehensive source of practical, up-to-date information for vaccine providers and educators. Its author, Gary S. Marshall, MD, has drawn together the latest vaccine science and guidance into a concise, user-friendly, practical resource for the private office, public health clinic, academic medical center, and hospital.

The Vaccine Handbook provides
- Information on every licensed vaccine in the United States;
- Rationale behind authoritative vaccine recommendations;
- Contingencies encountered in everyday practice;
- A chapter dedicated to addressing vaccine concerns;
- Background on how vaccine policy is made;
- Standards and regulations;
- Office logistics, including billing procedures, and much more.

The fifth edition contains a foreword by Deborah L. Wexler, MD, executive director, Immunization Action Coalition, which has partnered with the publisher, Professional Communications, Inc. (PCI), to promote The Vaccine Handbook.

FROM THE FOREWORD:

The Purple Book belongs in the hands of every medical student, physician-in-training, doctor, nursing student, and nurse who provides vaccines to patients, regardless of patient age or medical specialty. It is my honor to introduce the Fifth Edition to you. This essential reference beautifully supports all of us in our efforts to move forward in protecting our patients from the consequences of preventable diseases.

Deborah L. Wexler, MD
Executive Director
Immunization Action Coalition

The Vaccine Handbook is a wonderful, thorough collection of valuable information for all clinicians who vaccinate children. A must have reference book for every office.

Paul A. Offit, MD
Maurice R. Hilleman Professor of Vaccinology and Professor of Pediatrics, University of Pennsylvania School of Medicine

The Reviews

This book gives clinicians a well-organized and efficient one-stop source for information on immunizations and vaccine preventable diseases.

– Kevin J. Downes, MD
Cincinnati Children’s Hospital Medical Center

During my more than 20 years in the field of immunization education, I have not seen another book that is so brimming with state-of-the-science information.

– Deborah L. Wexler, MD
Executive Director, Immunization Action Coalition

A ready reference source on the practical aspects of vaccines and vaccinations.

– Robert M. Jacobson, MD
Mayo Foundation for Medical Education and Research

The Vaccine Handbook is a wonderful, thorough collection of valuable information for all clinicians who vaccinate children. A must have reference book for every office.

– Paul A. Offit, MD
Maurice R. Hilleman Professor of Vaccinology and Professor of Pediatrics, University of Pennsylvania School of Medicine

About the Author

Gary Marshall, MD, is professor of pediatrics at the University of Louisville School of Medicine in Kentucky, where he serves as chief of the division of pediatric infectious diseases and director of the Pediatric Clinical Trials Unit. In addition to being a busy clinician, he is nationally known for his work in the areas of vaccine research, advocacy, and education.
