Abbreviation | Trade Name and Manufacturer
--- | ---
DTaP | Daptacel (Sanofi); Infanrix (GSK); Tripedia (Sanofi)
DTaP-HepB-IPV | Pediarix (GSK)
DTaP-IPV/Hib | Pentacel (Sanofi)
DTaP-IPV | Kinrix (GSK); Quadracel (Sanofi)
DTaP-IPV-Hib-HepB | Vaxelis (MCM Vaccine)
Tdap | Adacel (Sanofi); Boostrix (GSK)
Td | Tenivac (Sanofi); Tdrix (MA Biological Labs)
HepB (see note #1) | Engerix-B (GSK); Recombivax HB (Merck); Heplisav-B (Dynavax); PreHebrio (VBL Vaccines) for 18 yrs & older
HepA-HepB | Twinrix (GSK) for teens age 18 yrs & older
Hib | ActHIB (Sanofi), Hibercyn (GSK), PediwatchHIB (Merck)
IPV | IPOL (Sanofi)
RSV-mAb | Beyfortus (Sanofi & AstraZeneica)
PCV13; PCV15; PCV20 | PCV13: Prevnar 13 (Pfizer); PCV15: Vaxneuvance (Merck); PCV20; Prevnar 20 (Pfizer)
PPSV23 | Pneumovax 23 (Merck)
RV1; RV5 | RV1: Rotarix (GSK); RV5: RotaTeq (Merck)

How to Complete this Record
1. Record the standard abbreviation (e.g., Tdap) or the trade name for each vaccine (see table at right). Use trade name for HepB if vaccinating an older teen (schedule varies by brand).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or NAS (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting should keep a reference list of vaccinators that includes their initials and titles.
6. For combination vaccines, fill in a row for each antigen in the combination.
7. IM is the abbreviation for intramuscular; Subcut is the abbreviation for subcutaneous.
8. RSV monoclonal antibody (mAb) is a passive immunization product, not a vaccine, routinely recommended for seasonal prevention of RSV disease in infants. Record administration in an equivalent manner.
Before administering any vaccines, give copies of all pertinent Vaccine Information Statements (VISs) to the child’s parent or legal representative and make sure they understand the risks and benefits of the vaccine(s). Always provide or update the patient’s personal record card.

How to Complete this Record
1. For meningococcal B and COVID-19 vaccines, record the trade name (see table at right); for all other vaccines, record the standard abbreviation (e.g., HPV) or trade name for each vaccine (see table at right).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or NAS (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting should keep a reference list of vaccinators that includes their initials and titles.
6. IM is the abbreviation for intramuscular; Subcut is the abbreviation for subcutaneous; NAS is the abbreviation for intranasal.
7. For combination vaccines, fill in a row for each antigen in the combination.

Abbreviation | Trade Name and Manufacturer
---|---
MMR | MMR II (Merck); Priorix (GSK)
VAR | Varivax (Merck)
MMRV | ProQuad (Merck)
HepA | Havrix (GSK); Vaqta (Merck)
HepA-HepB | Twinrix (GSK) for teens age 18 and older
MenACWY | MenQuad (Sanofi); Menveo (GSK)
MenB-4C | Bexsero (GSK)
MenB-FHbp (see note #1) | Trumenba (Pfizer)
HPV | Gardasil 9 (Merck)
cIIV (cell culture-based IIV) | Fluvaliv (Seqirus) for teens 18 and older
IIV (inactivated influenza vaccine) | Fluarix, Fluvirin (GSK; Afluria (Seqirus); Flublok (Sanofi)
LAIV (live attenuated influenza vaccine) | Flumist (AstraZeneca)
RIV (recombinant influenza vaccine) | RIV: FluBlok (Sanofi) for teens 18 and older
COV-mRNA (see note #1) | Comirnaty (Pfizer-BioNTech); Spikevax (Moderna)
COV-aPS (see note #1) | Novavax (Novavax)
Other (e.g., dengue) | Dengvaxie (Sanofi)
