

Give birth to the end of Hep B

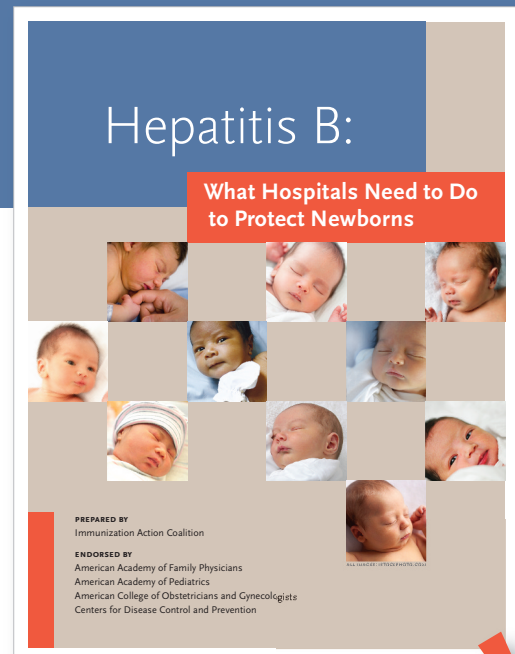

Healthcare professionals are invited to join the **Immunization Action Coalition** for a webinar on **Strategies and Tools for Implementing the Hepatitis B Birth Dose**

▶ **Tuesday, July 16, 2013 • 12 noon ET**

This unique and informative one-hour session will be moderated by **Debra Blog, MD, MPH**, Director, Bureau of Immunization, New York State Department of Health, with feature presentations by

- **Trudy V. Murphy, MD**, Medical Epidemiologist, Division of Viral Hepatitis, National Center for HIV, Viral Hepatitis, STD, and TB Prevention, CDC
- **Lynn Pollock, RN, MSN**, Perinatal Hepatitis B Coordinator, New York State Department of Health
- **Mary Miller, RNC**, Nurse Manager, Albany Medical Center
- **Deborah Wexler, MD**, Executive Director, Immunization Action Coalition

The webinar will include the launch of IAC's comprehensive e-book **Hepatitis B: What Hospitals Need to Do to Protect Newborns** and its new **Hepatitis B Birth Dose Honor Roll**.

Visit www.immunize.org/protect-newborns for more information as it becomes available.

Registration is required and is now open at <http://tinyurl.com/nkktjpo>

Please register early.

IMPORTANT NOTE

The webinar will use the services of GoToMeeting and will require a safe and quick installation of some software on your computer. If you have not previously used GoToMeeting, it is a good idea to register ahead of time in order to resolve any additional steps needed to get fully set up for the webinar.

Also, a security warning may appear when you go to the registration website.

If it does, simply click the "continue to this website" option and proceed. If you are using the web browser Firefox, you may need to click several times to "accept" the "exception."
