RSV (Respiratory Syncytial Virus) is a virus that causes respiratory infections.

1. What is Respiratory Syncytial Virus (RSV)?

RSV is a virus that causes respiratory infections in young children. It is the most common cause of lower respiratory tract infections in infants and young children. RSV can cause serious illness, especially in young children, elderly adults, and people with underlying health conditions.

RSV can cause symptoms including:
- Cough
- Runny nose
- Fevers
- Difficulty breathing
- Congestion

RSV is most common in the fall and winter months.

2. RSV in Infants

RSV can cause serious illness in young children, especially in infants. It is important to know the signs and symptoms of RSV and to seek medical attention if necessary.

Many Vaccine Information Statements are available in Burmese and other languages. See www.immunize.org/vis
3. Common adverse events (AEs)

* Patients treated with RSV vaccine may report:
  - Local reactions (pain, tenderness, swelling, or redness)
  - Systemic reactions (general discomfort, malaise, fever, muscle pain, headache)
  - Other reactions (nausea, vomiting, diarrhea, rash)

If you experience any of these symptoms, please contact your healthcare provider.

4. Precautions

- Avoid live virus vaccines for at least 4 weeks after RSV vaccination.
- Pregnant women should not receive the RSV vaccine.
- Avoid breastfeeding within 48 hours after receiving the vaccine.

5. Medications to avoid

- Avoid live virus vaccines for at least 4 weeks after RSV vaccination.
- Avoid live virus vaccines for at least 4 weeks after RSV vaccination.
- Avoid live virus vaccines for at least 4 weeks after RSV vaccination.
- Avoid live virus vaccines for at least 4 weeks after RSV vaccination.

If you are taking any of these medications, please consult your healthcare provider.

6. Additional information

- For emergency care, call 9-1-1 or visit the nearest hospital.
- For more information, visit www.fda.gov/vaccines-blood-biologics/vaccines or contact VAERS at 1-800-822-7967.

Please read this information carefully before receiving the RSV vaccine.
