

NURSES, PHYSICIANS, AND OTHER PROVIDERS:

Do you have questions about immunizations?

Join us for these informative seminars covering your most frequently asked questions!

These sessions were planned for nurses, by nurses... but they are useful to any immunization provider.

Best of all, the initial portion of each seminar may be viewed on **YOUR** schedule.

- First, view the pre-taped webcast.
- Later, join a **LIVE** seminar with CDC experts and immunization nurse educators.

In addition to individual training, these sessions will be perfect for trainings or “grand rounds” sessions at your hospital or clinic.

SESSION TITLE	Talking with Patients about Vaccines	Vaccination of Healthcare Personnel: Educated Decisions, Caring Choices	Reducing Vaccine Administration Errors
WHAT IS THIS SESSION ABOUT?	<ul style="list-style-type: none"> ▪ What are the “need to know” resources and tips to assist in talking with patients about vaccines? ▪ This could serve as a starter mini-training for new providers. ▪ Or, if you’re a teacher, mentor, supervisor, or administrator, this is the information you want your team to know. ▪ Check your knowledge to see if you’re familiar with all the points covered in the session. 	<ul style="list-style-type: none"> ▪ What are the newly issued vaccine recommendations for HCP ...and what is the rationale behind them? ▪ How can you take action on these issues in your work setting? ▪ This session will present information and tools of interest to either individual healthcare providers or administrators in healthcare settings. 	<ul style="list-style-type: none"> ▪ We know that vaccine administration errors occur. But what is the extent of the problem... and what can we do about it? ▪ Based on hundreds of questions received from vaccine providers, CDC experts have put together the most pertinent information to ensure errors are identified, resolved and prevented.
